

**REMARKS**

Applicants hereby amend Claims 22-24, cancel Claims 18, 19 and 26-63, and enter new Claims 64-66, in order to further the prosecution of the present application and Applicants' business interests, without acquiescing to the Examiner's arguments, and while reserving the right to prosecute the original, similar, or broader claims in one or more future application(s). The amendments and new claims are supported by the original description and claims, and do not introduce new matter. In particular, support for the abstract can be found on the first page of International Publication No. WO 2005/079458, while support for new Claims 64-66 can be found in original Claims 22-24. However, if there are any questions regarding the amendments, Applicants encourage the Examiner to call the undersigned collect.
